

I support Autism Awareness- Sticker campaign

The month of April is world Autism Awareness Month, a time to raise awareness about autism spectrum disorder (ASD). Autism affects 1 in every 66 in Canada, 1 in 42 boys and 1 in 165 girls.

The Autism Society of the RMWB is your local network of supports for families in our community. The organization offers programming for children and adults of all differing abilities. With your support, the society has the capacity to assist families and individuals to navigate additional services, as well as support them through their journey. By providing a variety of educational presentations as well as engaging in community events, we continue to strive to create an inclusive community.

We are calling on businesses, schools, and organizations to take part in our sticker campaign to raise funds that go towards services, supports and programs in your community. By purchasing a sticker, you are showing awareness and support for those living with ASD. The design of adding the Autism Society of the RMWB logo is to have a visual for where people can go to find more resources about ASD. The campaign is very simple, let us know the number of stickers you would like, then collect donations in exchange for the sticker. We will deliver the stickers and pick up donations when you are finished.

If you are a business or organization, you may choose to run the sticker campaign for the entire month of April. Stickers can be bought for \$1.00 (or by donation). If you are a school you may choose to help the campaign by collecting \$1.00 (or donation) per sticker from children on the day your school chooses to recognize Autism Awareness Day.

To take part in this awareness campaign please contact:
